Guidelines for Independent Study Projects

(These instructions are not for projects in connection with the writing concentration)

Please note: Permission is given rarely and only to students who present a clear and well-defined topic of study, who have a Department sponsor, and who submit their proposals well in advance of the semester in which they will register. As these are guidelines only, they may be modified at the sponsor's discretion.

1. A student must seek the tentative approval of a sponsor no later than November 15th for spring semester projects and, for fall semester projects, no later than April 15th. At this time she must

(a) provide a plausible case for the impossibility of realizing her project in the framework of an existing senior seminar and

(b) supply evidence of prior work in the area of the independent study project.

2. Approval is contingent on the sponsor's discussion of the project with the Chair of the Department.

3. After receiving the sponsor's tentative approval and the concurrence of the Chair of the Department, the student must submit a 500-word prospectus and a 10-item, briefly annotated preliminary bibliography of secondary sources no later than the last day of either term. (She should leave her email address or the like with the sponsor for communications during the recess.)

4. The completed application form must be submitted to the English Department Administrator (Sarah Pasadino, spasadin@barnard.edu) by 3:00 pm on the day before the last day of the final registration period for the semester. Check the English Department website for the exact due date of a particular semester.
